

# Paneltim® plastic panels

## Construction

### AIR

Paneltim® panels are ideal for construction of air ducts, air scrubbers, air filters, heat recovery units, and more.

**AIR FILTERS**

**HEAT RECOVERY SYSTEMS**

**ODOR FILTERS**

**INDUSTRIAL AIR SCRUBBERS**

**VENTILATION DUCTING**

**HEAT EXCHANGERS**

### LIQUIDS

Choose Paneltim® panels for the construction of liquid tanks, fish tanks, water reservoirs, swimming pools, swimming ponds, grease traps, and more.

**WASTEWATER TREATMENT TANKS**

**SWIMMING POOLS**

**LIVE FISH TRANSPORT TANKS**

## INFRASTRUCTURE

Paneltim® panels are ideal for flooring, walls, doors, staircases, safety enclosures, trailers, spray booths, mobile sanitary cabins, and more.

**CORRIDOR WITH INTERIOR DOORS AND WINDOWS**

**RESTROOM TRAILERS**

**WALL CLADDING**

**TECHNICAL ROOMS**

## CREATIVE APPLICATIONS

Paneltim® panels have been used for countless applications including plant boxes, covers for existing tanks, furniture, packaging, sedimentation tanks for the mining industry, and storage cabinets.

**TANK COVERS**

**FLIGHT CASES**

**PLANTER BOXES**

**STORAGE CABINETS**

# 25 YEARS PANELTIM

## THE KEY REASONS FOR CHOOSING PANELTIM® PANELS

### Light, yet strong

With an internal cell structure of 2" x 2", 2" x 4" or 4" x 4", Paneltim® panels are lightweight, yet sturdy and strong.

### Easy fabrication

Paneltim® panels are easy to work with using standard tools (saws, drills, and screws). Panels can be joined together to whatever dimensions are required by means of plastic welding.

### Quick assembly

Large surface areas created by welding panels together can still be assembled quickly because Paneltim® panels are so lightweight. It's easy to install pipes and control boxes on Paneltim® partitions and walls, making them an excellent choice for corridors, machine basis, electrical and plumbing panels and technical rooms.
